Remarks

1. The following is an examiner's statement of reasons for allowance:

Claims 6-11, 13-15 and 25 are allowable primarily because claims 6, 11 and 25 require a phase locked loop (PLL) circuit having a dual gate-dielectric thickness with all components formed with thin gate oxide layers except for the capacitor in (within) the low-pass filter, wherein the capacitor has a thick oxide layer. The combination of limitations recited in claims 6, 11 and 25 cannot be anticipated or fairly suggested by the references of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lex Malsawma whose telephone number is 571-272-1903. The examiner can normally be reached on Mon-Fri (6AM-2PM EST).
